

PRESS RELEASE – Klinge Corp showcasing Specialized Military Refrigerated Containers at DSEI

September 2017, London England

Continuing on from success at the previous event, Klinge Corporation will be exhibiting at Defence and Security Equipment International (DSEI) in the USA Pavilion in booth N4-370.

DSEI one of the worlds leading military events that brings together the global defence and security sector to innovate and share knowledge. DSEI represents the entire supply chain and focuses on Air, Land, Naval, Security & Joint. Each zone will feature prominent exhibitors to showcase the latest innovations. Klinge

“DSEI is a premier global defense event. We are thrilled to be showcasing our ISO Military Refrigerated Containers to the visitors and delegations. Klinge Corporation has decades of experience working with defense forces from across the globe for over twenty years.”

Company President, Allan Klinge continues, “Our Engineering team designs to highly specific military specifications and our Production team executes these extremely specialized equipment to our customers. We have been delivering our military equipment to various countries for over twenty years and our equipment is rated to numerous military standards.”

Klinge Corporation offers a 20ft Dual Zone Refrigerated Container (separate freezer and refrigerator sections), 10ft Single Zone Refrigerated Container (either freezer or refrigerator), A-Frame Refrigerated Container, and Triple Container (Tri-Con) Refrigerated Container. All models are available with an integral generator set for back-up power.

Defense customers include the Australian Defence Force, Swedish Defence Force, US National Guard, Danish Military, Hungarian Military, and the UN (via

About Klinge Corporation

Klinge Corporation is the leading provider of specialized transport refrigeration and power generation equipment. Founded as a spin-off of the Transport Refrigeration Equipment department of York International, Klinge has been producing refrigeration

equipment at its manufacturing facilities and headquarters in York, Pennsylvania, USA since 1984.

The company's customized designs offer commercial and military customers robust alternatives to standard, mass-produced refrigerated containers which often cannot meet the requirements of harsh environments or stringent testing.

Klinge Corporation offers Dual Refrigerated Containers, Offshore Explosion-Proof Refrigerated Containers, Refrigerated Tank Containers, Blast Freezers, Ultra-Low Temperature Units, Quick Thaw Units, Integral and External Generator Sets, and Collapsible Food Storage Bins.

The company designs and manufactures the following:

- **Ultra-Low Temperature (-60°C) Freezer Containers** - for pharmaceuticals, ice cores, tuna, etc
- **Offshore Refrigerated Containers** - for Hazardous Zones such as oil rigs, oil tankers, and chemical plants
- **Explosion-Proof Refrigerated Containers** - for Petrochemical, Self-Reactive and Like Products
- **Dual Refrigeration System Refrigerated Containers** (with 100% emergency backup capabilities) - for chemicals, pharmaceuticals, and dangerous goods.
- **Tank Refrigeration & Heating Units** - for ISO Containers, Road Trailers and Stationary Applications
- **Military Refrigeration and Air Conditioning Applications** - built to military standards
- **Transport Air Conditioning Units** - built to withstand extreme high temperatures & sandstorms
- **Pre-Coolers** - used for fruit & vegetables in the field allowing for longer shelf life
