

**PRESS RELEASE – KLINGE CORP TO EXHIBIT AT TRANSPORT LOGISTIC IN THE ITCO PAVILION**

May 2017, Munich, Germany

Klinge Corporation will be exhibiting at Transport Logistic, leading trade fair for logistics, mobility, IT, and supply chain management. The event will be held from 9 – 12 May 2017.

The exhibition features four sectors: Freight transport systems (ocean, road, rail, and air transport), services for freight transport and logistics, IT/Telecommunications, and Intralogistics/Warehouse/Packaging.

The event will include over 2,000 exhibitors showcasing their latest innovations and more than 55,000 attendees from all around the world.

Klinge Corporation, a member of the International Tank Container Organization (ITCO), will be exhibiting in the ITCO Pavilion at Booth 18.

The company will have their ultra-lightweight Tank Container Refrigeration Unit, which is also available in a high capacity version delivering 7 kW of cooling power. In addition, they will showcase their Tank Container Heater that provides 12 kW of heating power, and their Control Box.

Company President, Allan Klinge says, “We are thrilled to be showcasing our recently introduced options for Tank Containers. This includes a higher capacity, compact and lightweight Tank Refrigeration Unit, Tank Container Heaters with more heating power, and our new smaller control box. We have been innovating and improving our equipment in response to large customer demand and are excited to introduce these items at the exhibition.”

Klinge Corporation also offers the following equipment for Tank Containers:

- ATEX Zone II Tank Container Refrigeration Unit (namely for storage of

goods in Hazardous Zones)

- Dual Refrigeration System Tank Container Unit with Integral Genset (namely for transport of dangerous chemicals or high value goods)
- Single Refrigeration System Container Container Unit with Integral Genset

### About Klinge Corporation

Klinge Corporation is the leading provider of specialized transport refrigeration and power generation equipment. Founded as a spin-off of the Transport Refrigeration Equipment department of York International, Klinge has been producing refrigeration equipment at its manufacturing facilities and headquarters in York, Pennsylvania, USA since 1984.

The company's customized designs offer commercial and military customers robust alternatives to standard, mass-produced refrigerated containers which often cannot meet the requirements of harsh environments or stringent testing.

Klinge Corporation offers Dual Refrigerated Containers, Offshore Explosion-Proof Refrigerated Containers, Refrigerated Tank Containers, Blast Freezers, Ultra-Low Temperature Units, Quick Thaw Units, Integral and External Generator Sets, and Collapsible Food Storage Bins.

The company designs and manufactures the following:

- **Ultra-Low Temperature (-60°C) Freezer Containers** - for pharmaceuticals, ice cores, tuna, etc
- **Offshore Refrigerated Containers** - for Hazardous Zones such as oil rigs, oil tankers, and chemical plants
- **Explosion-Proof Refrigerated Containers** - for Petrochemical, Self-Reactive and Like Products
- **Dual Refrigeration System Refrigerated Containers** (with 100% emergency backup capabilities) - for chemicals, pharmaceuticals, and dangerous goods.
- **Tank Refrigeration & Heating Units** - for ISO Containers, Road Trailers and Stationary Applications
- **Military Refrigeration and Air Conditioning Applications** - built to military standards
- **Transport Air Conditioning Units** - built to withstand extreme high temperatures & sandstorms

# KLINGE

- **Pre-Coolers** - used for fruit and vegetables in the field allowing for longer shelf life
